The Stanford Department of Pathology is planning to hire up to 4 new faculty members in the Medical Center Line (MCL) with expertise in Anatomic or Clinical Pathology, with focus in surgical pathology subspecialties, cytopathology, molecular pathology or biobanking. Stanford Medicine is committed to the vision of precision health to lead the biomedical revolution. The Department of Pathology fully embraces this inspired vision as we collaborate closely with our colleagues in Stanford Health Care, Stanford Children’s Health, and Stanford University School of Medicine. We are seeking ambitious colleagues who are enthusiastic about our vision and committed to our collaborative approach. If you are interested in advancing precision health at one of the greatest universities in the world, situated in the most dynamic and entrepreneurial region of the U.S. and currently undergoing major inpatient and outpatient expansions, then join us.

The major criteria for appointment for faculty in the Medical Center Line (MCL) are excellence in the overall mix of clinical care, clinical teaching, and scholarly activity that advances clinical medicine.

Successful candidates will join the faculty in the Department of Pathology, which currently includes a Nobel laureate, multiple members of the National Academies of Sciences and Medicine, and many other investigators with national and international distinctions. In addition to its outstanding research program, the Department of Pathology is responsible annually for over 3.4 million laboratory tests and 50,000 anatomic pathology specimens, and educates outstanding graduate students, residents, and fellows.

Candidates must have a MD or MD/PhD, be board certified in Anatomic Pathology and/or Clinical Pathology, and must hold or acquire a license to practice medicine in the State of California; completion of subspecialty fellowship training or comparable subspecialty experience is desirable.

Applicants should submit his or her curriculum vitae, cover letter, and brief description of plans for future research (in one pdf document). These, with the names of five references, should be sent to Thomas J. Montine, MD, PhD., Professor and Chair, c/o Ms. Cynthia Llanes, cllanes@stanford.edu by October 31, 2017.

Stanford University is an equal opportunity employer and is committed to increasing the diversity of its faculty. It welcomes nominations of and applications from women, members of minority groups, protected veterans and individuals with disabilities, as well as from others who would bring additional dimensions to the university’s research, teaching and clinical missions.
