MAJOR EXPANSION OF STANFORD PATHOLOGY RESEARCH FACULTY (up to 5 positions)
ASSISTANT, ASSOCIATE OR FULL PROFESSOR (University Tenure Line Professoriate)

The Stanford Department of Pathology is planning to hire up to 5 new faculty members in all ranks of the University Tenure Line (UTL) with expertise in all areas of basic or translational research related to carcinogenesis, immunity and inflammation, genomics, regenerative medicine, and neuroscience. Stanford Medicine is committed to the vision of precision health to lead the biomedical revolution. The Department of Pathology fully embraces this inspired vision as we collaborate closely with our colleagues in Stanford Health Care, Stanford Children’s Health, and Stanford University School of Medicine. We are seeking ambitious colleagues who are enthusiastic about our vision and committed to our collaborative approach. If you are interested in advancing precision health at one of the greatest universities in the world, with major on-going in-patient and outpatient expansions, that is situated in the most dynamic and entrepreneurial region of the US, then join us.

The predominant criterion for appointment in the University Tenure Line is a major commitment to research and teaching. Clinical duties may be included, in which case excellence in clinical care is required. Clinical responsibilities may include Anatomic, Clinical or Molecular Pathology.

Successful candidates will join the faculty in the Department of Pathology, which currently includes a Nobel laureate, multiple members of the National Academies of Sciences and Medicine, and many other investigators with national and international distinctions. In addition to its outstanding research program, the Department of Pathology is responsible annually for over 3.4 million laboratory tests and 50,000 anatomic pathology specimens, and trains outstanding graduate students, residents, and fellows.

Candidates must hold a Ph.D., an M.D., or M.D./Ph.D. Candidates with clinical responsibilities must be board certified in Anatomic Pathology and/or Clinical Pathology, and must hold or acquire a license to practice medicine in the State of California; completion of subspecialty fellowship training or comparable experience is desirable.

Applicants should submit your curriculum vitae, as well as a brief description of research accomplishments and plans for future research (in one pdf document). These, with the names of five references, should be sent to Thomas J. Montine, MD, PhD, Professor and Chair, tmontine@stanford.edu

Stanford University is an equal opportunity employer and is committed to increasing the diversity of its faculty. It welcomes nominations of and applications from women, members of minority groups, protected veterans and individuals with disabilities, as well as from others who would bring additional dimensions to the university’s research, teaching and clinical missions.
