NEUROPATHOLOGIST - CLINICAL ASSISTANT OR CLINICAL ASSOCIATE PROFESSOR OF PATHOLOGY

The Department of Pathology at Stanford University School of Medicine seeks an academically-oriented diagnostic neuropathologist for appointment at the rank of Clinical Assistant or Clinical Associate Professor in the Clinical Educator Line. The major criterion for appointment for Clinician Educators is excellence in the overall mix of clinical care and clinical teaching appropriate to the programmatic need the individual is expected to fulfill. The academic appointment at the School of Medicine will be Clinical Assistant or Associate Professor depending on the applicant’s experience. All candidates must demonstrate excellence or promise of excellence in a combination of clinical performance and clinical teaching that advances clinical medicine appropriate to the programmatic need upon which the appointment will be based. In addition, there are many opportunities for participating in research.

Neuropathology handles each year approximately 800 neurosurgical specimens from Stanford University Medical Center (SUMC), and an additional 600 consultation specimens from outside of SUMC, including approximately 300 muscle biopsies from SUMC and non-SUMC patients; the service also is responsible for approximately 250 brain examinations annually. Duties will include sign-out responsibilities in surgical and autopsy neuropathology, including frozen section analysis. Consideration will be given to additional diagnostic responsibilities in general surgical pathology and cytopathology, and molecular and genetic laboratory diagnosis of brain tumors, according to the interest and qualifications of the applicant. The successful candidate will be expected to participate in training clinical residents and fellows. Candidates must hold an M.D. and board certification in anatomic pathology and neuropathology, and are required to hold or to be eligible for a current license to practice medicine in the State of California.

Applicants should submit curriculum vitae, as well as a brief description of diagnostic pathology training and accomplishment. These, with the names of three references, should be sent to:

Stephen J. Galli, M.D.
Professor and Chair
