

Associate or Full Professor in Dermatopathology and Director of Dermatopathology

The Department of Pathology at Stanford University School of Medicine seeks an academic Dermatopathologist at the rank of associate or full professor for appointment in the Medical Center Line, who will serve as Director of Dermatopathology and Director of the Dermatopathology Fellowship Program. The major criteria for appointment for faculty in the MCL shall be excellence in the overall mix of clinical care, clinical teaching, scholarly activity that advances clinical medicine and institutional service appropriate to the programmatic need the individual is expected to fulfill. Appointment to the rank of Associate Professor in the MCL will be considered for those who have demonstrated excellence in clinical care, clinical teaching, and scholarly activity that advances clinical medicine. Written scholarship that advances the field will almost always be required for appointment to the rank of Associate Professor. There should be evidence that candidates have attained regional recognition as superior clinicians and clinical teachers. There should be evidence that the candidates will successfully fill the programmatic need for which the appointment is made and will make meritorious contributions to their discipline and to the School. Appointment to the rank of Professor in the MCL will be reserved for individuals who have demonstrated exceptional performance in clinical care, clinical teaching and scholarly activity that advances clinical medicine, and who are widely recognized as leaders in their field. There must be evidence that these individuals have attained national recognition as superior clinicians and clinical teachers, that they have demonstrated continuing excellence and progressive maturation as physicians, teachers and scholars, and that they will successfully fill the programmatic need for which the appointment is made and will continue to make outstanding contributions to their discipline and to the School. They may be recognized nationally as leaders of the health care system or of organizational change and measurement of health care systems. Written scholarship that advances the field will almost always be required for the rank of Professor. The primary emphasis of written contributions should be on peer-reviewed articles, but other written work such as books, chapters, reviews, and commentaries should also be acceptable. The intensity of personal contributions to the advancement of clinical medicine will be tempered by the administrative commitments of those with major ongoing institutional leadership roles.

Candidates must hold an M.D. or an M.D., Ph.D., be board certified in anatomic pathology and dermatopathology, and are required to hold or to be eligible for a current license to practice medicine in the State of California. The successful candidate will be appointed as director of the Dermatopathology Service and as director of the Dermatopathology Fellowship Program. Duties will include having extensive sign-out responsibilities in dermatopathology and having an important role in the training of residents in anatomic pathology and dermatology. A record of independent scholarly contributions in clinical, translational or basic research is required, since the successful candidate will be expected to establish a research program in dermatopathology and/or related fields. There are abundant opportunities for such research, which can include collaborations with colleagues in the Pathology and Dermatology Departments and in other departments at the University. Moreover, the Department of Pathology is committed to providing faculty with clinical responsibilities both time and support to pursue research programs.

Applicants should submit curriculum vitae, as well as a brief description of research accomplishments and plans for future research. These, with the names of five references, should be sent to:

Stephen J. Galli, M.D.
